Sustainability

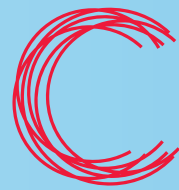

At C Rodrigues, we're not just about fun in the sun – sustainability is at the heart of our charm. We're thrilled to team up with the Bluer Ocean Project, making waves in restoring the glittering lagoons of Rodrigues Island. For every reservation, we're planting coral reefs, because we believe in giving back to the ocean that gives us so much joy.

But wait, there's more! Choose our Carbon Neutral Stay option to tread lightly on our beautiful planet. We're cutting down on single-use plastics, cheering for local sourcing, and making recycling a breeze. Our hotel shop? A treasure trove of local, eco-friendly goodies. And water conservation? We're on it with desalination and recycling. Oh, and let's not forget our solar-powered water heating and solar power plant. Stroll through our gardens, and you'll see native species thriving – because preserving Rodrigues' natural splendor for the next generation is just how we roll here.
